DETAILED ACTION

Allowable Subject Matter

1. Claims 79 and 84 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims 79 and 84 disclose a method and system of reproducing audio data from a recording medium as recited in those claims. The prior art of record teach or disclose a similar invention; however, the prior art does not teach or disclose singularly or in combination a data player for comparing module identification data buried in the read audio data with module identification data in the user identification module; wherein if the compared module identification data is coincident, reproducing the audio data; and wherein if the compared module identification data is not coincident, detecting a reproduction rule buried in the read audio data and reproducing the audio data in accordance with the reproduction rule; wherein the audio data is reproduced when the compared module identification data is coincident by decrypting the audio data using user identification data from the user identification module, decompressing the decrypted audio data, and decoding the decompressed audio data. For these reasons, claims 79 and 84 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
